Certifications

aws certified
Cloud Practitioner
FOUNDATIONAL

Languages:

English: Conversational level (B1-B2)

Training

Hackademy:
Red Team (2024), OSINT (2024)
SeaCCNA: CyberOps Asociate course (2024)
Hackademy:
Fundamentals of Hacking and Defense (2022);
Cloud Seecurity & DevSecOps (2022)
MundoSE:
Devops (2022); Data Science (2023)
Udemy: Docker, Kubernetes, Terraform, Airflow
Educacion IT: Linux, Java

Technicall Skill:

Servers: Linux
CLOUD: GCP, AWS, Azure
Technology: Docker, Jenkins, Terraform. Java 11, Spring MVC, Spring Batch, Spring Boot, HTML5, CSS, JavaScript, Angular JS, Node Js, CouchDB; SOA XML, Rest (Json), Bash.
Database: Oracle, MySQL, Postgress

FLEITAS, NESTOR D.

DEVOPS / DEVSECOPS

Profile

Passionate about technology. Constant entrepreneur. Empathetic and proactive. I consider myself a
person eager to learn. Ease of teaching, explaining and guiding those who allow me. Experienced in
Java development, I have experience in Cloud technologies but I still develop my skills.

Main Skills

- Software development
- Automation CI/CD, Infra as a Code
- Analysis of business models
- Problem resolution
- Quality test design
- Design Research and user training
- Project documentation

Career goals

- DevOps
- DevSecOps
- Undertake new technological challenges

Work Experience

DATA ENGINEER / DEVOPS

AGEA SA
10/2022 – 03-2024

- Create AWS Infraestructure, with terraform, docker and Jenkins.
- GCP Integration with Elastic Cloud;
- Pubsub; Dataflow; Airflow; Docker; Kubernetes; Java Development
- Create AWS Infraestructure, with Cloudfront, S3, RDS. Backend with node js microservice on EKS cluster. We use CDK, CodeBuild, CodePipeline, CodeRepository. EKS, Docker

TECHONOLOGY ARCHITECTS - DEVOPS

Ingenia
04/2022-09/2022.

- Client: Geopagos, Participation of architectural design. Building infra on AWS, Kubernetes with Terraform, Airflow and Gitlab.
- Client: Mercantil Andina, Participation of architectural design of new platform. Building infra on Azure, AKS with Terraform, Azure DevOps and BItbucket
- Client: Fravega, POC Building infra on AWS, Kubernetes with Terraform, Istio, Prometheus and Gitlab.

CI / CD FOR APP MOBILE

Flux IT - La Nacion
07/2021-02/2022.

- Project for building infrastructure for CI / CD with Azure Devops, to build and test Android and IOS Mobile. On this project we monitoring and supervision with SonarQube.Others tools Terraform Docker, AKS in Azure Portal and Azure Devops.

SRE - DEVOPS - GCP

Equifax
02/2020-06/2021

- Site Reliability Engineer, DevOps with management of the most common tools such as Docker, Ansible, Apache Http Server, Apache Tomcat 7 and 8, monitoring and supervision with Nagios Core and implementation of CyberARK, Linux (Red Hat), Apache Web Server, Nginx, Bash Scripting, Perl Scripting, Python scripting, load balancing, handling and configuration of Jenkins, Terraform and kubernetes in Gcloud.

SOA DEVELOPER & CONFIG. MANAGER & TEACH REFERENCE:

Telecom
03/2018-02/2020.

- Analysis and development of functional and technical documentation, Programming in SOA
- Architecture, Designing new services, Architecture maintenance with Java connectors, Xquery
- Transformations, Ide: JDeveloper, OSB 12c. OSB 11, Aqualogic 9.
- Server Linux. Tools: Jenkins, Release Automation. Jira, Confluence, Stash, Trello.

JAVA MIDDLEWARE DEVELOPER - SOA DEV:

HSBC Bank
10/2017 – 06/2018

- Analysis and development of functional and technical documentation, Programming in JAVA,
- Designing new services, Architecture maintenance with Java connectors, SOA Integration. Ide:
- Eclipse. RTC, ESB IBM

JAVA DEVELOPER IN ARCHITECT AREA:

Credicoop Bank
10/2014 – 09/2017

- Analysis and development of functional and technical documentation, Programming in JAVA,
- Designing new services, Architecture maintenance with Java connectors.

Ide: Eclipse. Tomcat,JBoss. Open Languages: Angular, NodeJs, JavaScript, Mongo DB, Couch DB. Jenkins

JAVA SOA – OSB (ORACLE) CONSULTANT:

Telefónica- Movistar
08/2013 – 10/2014

- Analysis and development of functional and technical documentation, Programming in JAVA,. Ide:
- Eclipse, OEPE, JDeveloper. Tomcat. Oracle Service Bus (OSB), Weblogic.
- Integration of commercial modules using OSB, BPel, WebServices, Spring, EJB.
- Migration Support, Incident Management.

JAVA CONSULTANT

Telefónica- Movistar
07/2012 – 07/2013

- Analysis and development of functional and technical documentation, Programming in JAVA,
- JavaScript, JSP, Android. Ide: Eclipse, Tomcat. Weblogic. Customization of network management
- applications: HDM, CSC, MDM. RedHat and Solaris Servers Installation. Development in Java,
- android. WebServices, soapUI.
- Research new tools and technical documentation / functional.
- Agile Methodologies – Scrum

JAVA CONSULTANT

Telefónica- Movistar
08/2011 – 07/2012

- Analysis and development of functional and technical documentation, Programming in JAVA, with different tools: WEB, Hibérnate, etc.

COBOL DEVELOPER JR

Accenture S.A. – Rosario
09/2008 – 06/2009

- Perform tasks Cobol programming language in various projects assigned;
- Tools Experience with Mainframe Cobol, JCL, DB2;

JAVA DEVELOPER

TGV Excelencia en Soluciones Informáticas S.A.
03/2007 – 03/2008

- Perform programming tasks in Java in various projects assigned. Using Web Tools, JSP, Servlets

and Struts. SQL Management, Cvs, JavaScript and HTML;
